Inspired by nature's simple truths, Tomihiro's images and verse give a rare insight into the depths of misery he faced and eventually overcame when in 1970, at the age of 24, the artist was left paralyzed from the neck down. His work also allows a glimpse of the heights the human spirit can scale. Holding a brush in his mouth, each stroke on paper brims with hope, courage, and an earnest joy of living. His art is a profound gift to all of us.

Golden Dragon Parade

Saturday, January 31, 2009

In celebrating over one hundred years of tradition, the Chinese Chamber of Commerce of Los Angeles presents the 2008 Golden Dragon Parade. With over 110,000 individuals lining the parade route and thousands viewing the telecast each year, this colorful celebration along North Broadway in Chinatown has become the premiere cultural event in the Southern California Asian-American Community. Since the mid-1980's, the Golden Dragon Parade has expanded to include almost two dozen floats, multiple marching bands, government officials, various dignitaries, entertainers, local business leaders and cultural groups. The parade's theme emphasizes ethnic diversity, Chinese Culture and exposure to Chinese-American businesses. The parade continues to be a rich and diverse experience for Angelenos of all ages and ethnicities.

The day of the Lunar New Year is the most celebrated holiday of the year for nearly 1.5 million persons of Chinese, Korean, and Vietnamese decent in

Southern California. It is celebrated with colorful festivals, parades, and most importantly, large family gatherings.

It is also a time when ancestors are fondly remembered and families give thanks for their blessings. Red packets of money ("Lai See" or "Hung Bao") and firecrackers add fun and excitement to the Chinese New Year celebration.

We invite you to be a part of this important annual celebration - as a spectator, participant or sponsor.

Please contact us for further information as needed.

Friday, February 6, 2009, Noh, Pathos Behind the Mask

7pm

Aratani/Japan America Theatre

This rare and exciting performance and lecture/demonstration will introduce
audiences to the performing arts of the royal court.

In this one time only event, Noh principal actor and lecturer Shizuka Mikata of the
Kanze School in Kyoto, Japan will bring his keen understanding and traditional
training to the United States for the first time for this touring program.

Shizuka Mikata was born in Kyoto in 1966 as the eldest son of NOH performer
Ken Mikata. He made his first appearance on the professional stage at the early
age of 5, followed by his first leading role at 12. Mikata went on to apprentice
with the legendary NOH master and Japanese living national treasure of Japan,
Kurouemon Katayama.

Through the Japan Foundation's International program, Shizuka Mikata will be
joined by four outstanding figures, actor Michiharu Wakebayashi, flute player
Manabu Takeichi, Kutsuzumi drummer Ichiro Kichisaka and Otsuzumi drummer
Masaru Kawamura. Together these classically trained Noh performers of the
Kanze School will demonstrate with awe inspiring precision the true movements,
sound and stories from the elusive art.

Accompanying this program will be a classically designed stage, wardrobe,
musical instruments and images of Noh performance in Japan.

About Noh

Uniquely subtle and regal, Noh, one of the oldest forms of performing arts in the
world today, has been performed since the 14th century in Japan. Veiled in a fog

of intrigue and mystery, Noh features rhythmic musicians, choral chanters and masked actors as they tell the stories handed down over generations. In Noh, tradition dictates each performer to practice the fundamental movements, songs and dances independently, making each performance fresh to the audience and performers. A hybrid of improvised tradition, "Noh: Pathos Behind the Mask" will examine and demonstrate the many unique cultural traditions that have been handed down for generations.

TRANSCENDING: THE WAT MISAKA STORY

A documentary film about Wat Misaka, the first Asian American pro basketball player. A Nisei who was born, raised and is still living in Utah, he was the very first draft pick of the New York Knicks, in 1947. TRANSCENDING - THE WAT

MISAKA STORY is a documentary film about Wat Misaka, the first Asian

American pro basketball player. A Nisei who was born, raised and is still living in Utah, he was the very first draft pick of the New York Knicks, in 1947.

Overcoming the national political climate during World War II, Wat was a star

player for the University of Utah 1944 and 1947 championship teams, taking 2 years off in between to serve in the U.S. Army. His perseverance and loyalty to his teammates, other Nissei friends (including those interned at Topaz) and his family are a testament to the unflappable Japanese American spirit.

This film includes in depth interviews with Wat and his family, teammates from his championship teams (including All-American star Arnie Ferrin of the Minneapolis Lakers) sports authorities (including Knicks Historian Dennis D'Agostino and ubiquitous New York sportscaster Spencer Ross), and many who continue to look up to him as both a role model and personal hero. The film also has video clips from his 1944 and 1947 college games, rare footage from a visit to the Topaz Internment Camp, and countless photos of his triumphant career. Directed by award winning filmmakers Bruce Alan Johnson and Christine Toy Johnson, this project was awarded two consecutive grants from the California Civil Liberties Public Education Program. Plans are in motion to have screenings and accompanying panel discussions on exclusion at universities across the country.

The World Premiere of Tadashi Nakamura's film

A SONG FOR OURSELVES (2009)

The third and final film in Tadashi Nakamura's trilogy following *Yellow Brotherhood* and *Pilgrimage*, *A_Song for Ourselves* is a personal journey into the life and music of Asian American Movement troubadour Chris Iijima.

During the 1970s when Asians in America were invisible to the country--and more importantly even to themselves--the late Chris Iijima's music provided the voice and identity an entire generation had been in search of. Through animated photographs, intimate home movies, archival footage and Chris' own songs, *A Song For Ourselves* shows how Chris' music unleashed the contagious energy of the Asian American Movement with an unrelenting passion for social justice and a life well lived.

Director's Statement:

The Asian American Movement not only worked for social justice, it created the community into which I was born and raised. When I asked what the early movement was like, my mom simply played an old record for me. This was my first introduction to Chris Iijima. When I got to know Chris myself, rather than seeing him as an OG from the past, I looked up to him as a role model for the present. When Chris got sick, the community that was created over thirty years ago came together from all parts of the country to care for him and his family in a way that made me realize the lasting power of the Movement. *_A Song For Ourselves* is my attempt to capture the essence of this community I am grateful and proud to be a part of.

This premiere screening will also feature LIVE performances by BLUE SCHOLARS, BAMBU, KIWI and special guest artists Nobuko Miyamoto and Charlie Chin.

TOYO'S CAMERA - Japanese American History during WWII (2009)

A Documentary told through Toyo Miyatake's photographs~_While cameras were prohibited in internment camps, there was one photographer who smuggled in a lens and built a camera with it, to capture life behind barbed wired. That photographer was Toyo Miyatake. Toyo's photographs of internment camp capture the compelling stories of Japanese Americans during World War II in this feature documentary.

The works of Toyo's mentors and companions, 20th century's famed photographers Ansel Adams and Edward Weston, are also uncovered in this film. Close to 500 riveting photographs of Japanese Americans in internment camp come to life on the big screen. Coupling with Toyo's photographs is Grammy and Golden Globe Award winning artist, Kitaro's euphonious music. The powerful and vivid songs dramatically add energy to Toyo's photographs. The film ends with "Kenji," a song by Mike Shinoda from the band Linkin Park, who wrote this song based on his grandfather's internment.
